

THE JAMES WALKER CO.

CROSBY WESTERN BLOCKS

THE **NEW** WESTERN BLOCK LINE

If today's technology was available over a century ago . . .
 . . . This is the way Western Blocks would have been produced.

- Bolt style center pin with lock washer and staked nut
- No straps
- Laser burned side plates
- Every block permanently stamped with the following:
 - Working Load Limit
 - Block Size
 - Rope Size

<p>385 Wood Shell Manila Rope Snatch Blocks</p>  <ul style="list-style-type: none"> • New stock numbers • New higher working load limits • Painted or galvanized steel with replaceable wood bumpers • Laser cut side plate opens for insertion of rope. <ul style="list-style-type: none"> - Incorporates exclusive bolt retaining spring to assure no lost bolts, plus utilizes secondary retaining pin. • Bronze bushed sheaves with larger bearing diameter for extended block life. • Lubricated center pin • 10" and 12" sizes utilize steel sheaves 	<p>301 - 302 - 303 Steel Shell Blocks for Manila Rope</p>  <ul style="list-style-type: none"> • Same stock numbers • Same working load limits • Same fittings available • Laser cut side plates • Galvanized steel • Grade 5 bolts secured with lock washers and staked nuts • Bronze bushed sheaves with larger bearing diameter for extended block life • New style hanger for fitting attachment 	<p>261 - 262 - 263 Standard Steel Shell Blocks for Manila Rope</p>  <ul style="list-style-type: none"> • Same stock numbers • Same working load limits • Same fittings available • Laser cut side plates • Painted steel • Grade 5 bolts secured with lock washers & staked nuts • Bronze bushed sheaves with larger bearing diameter for extended block life.
