

# THE JAMES WALKER CO.

## SLINGS & CARGO NETS

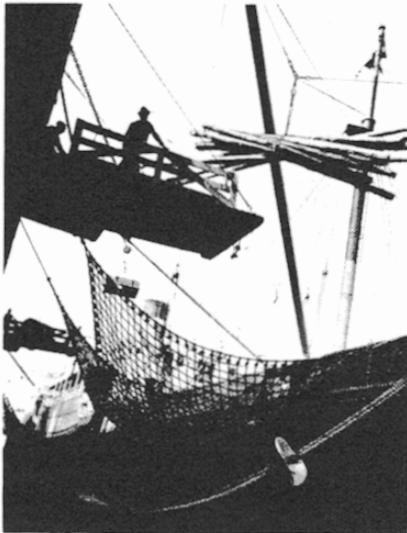

Slings and cargo nets must meet a wide range of specifications. Opinion varies as to proper use, strengths, care, etc.. Our marine men will be happy to consult with you as to the proper use and safety factors of slings and cargo nets. Manila rope resists rough surfaces, sharp corners, sudden strains and excessive shock that take their toll of so many rope nets.

### CARGO NETS:

Manila Rope  
3" cir. to 3-1/2" cir.-for Mesh  
4" cir.-for Bolt or Frame  
3 Strand  
Standard or Soft Lay

### SLINGS:

Manila Rope  
3" cir. to 3-1/2" cir.  
3 Strand  
Standard Lay  
Generally 6 fms. in length, short spliced into one continuous length.

## SAVE-ALL NET ROPE

A waterproof, abrasion-resistant rope that is easy to handle and retains its lubrication over long periods of wear in all types of weather. Pure Manila Rope is your answer to these requirements so essential in Save-All nets.
